

Slate Tile

Slate is a fine-grained, foliated metamorphic rock that is commonly used for roofing, flooring, and other architectural applications. Slate is known for its durability, resistance to weathering, and natural beauty. Its ability to split into thin, flat layers makes it ideal for various uses in construction and design.

Pebble Mosaics

Pebble mosaics are fashioned with small, smooth chips of natural stone rounded in shape of pebbles. Used extensively to fabricate the look of a natural pebble formation, these mosaics cast the most extravagant, stunning splash of nature on interior and exterior walls. Pebble mosaics can also be used to grant fountains and pillars a more natural appearance.

Specifications

Size : 300 mm x 300 mm
Finish : Varying
Thickness : Varying
Style : Inter-lock Panels

A modern bathroom has its gray rock and split mosaic wall complemented with striking white pebble mosaic wall, granting levity and a surreal intricacy to the space.

Pebble mosaic installed on the bathroom sink wall creates an instant elegance with rich swirling patterns and a peppered texture, giving a vintage backdrop to the modern fixtures.

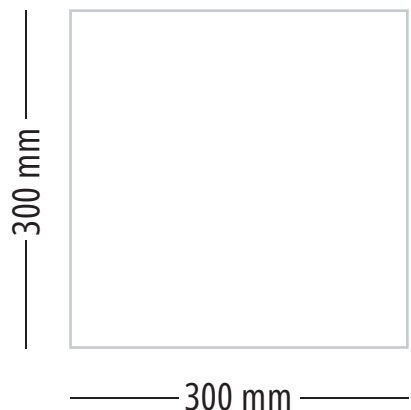

Tapered Mosaics

Paint a multi-dimensional landscape on your walls with spectacular Tapered Mosaic tiles. The tiles are shaped by putting together chips with slanted surfaces in various geometric formations to create intricate designs. Ideal for interior and exterior application, natural stone tapered mosaics denote a distinct sense of ageless creations.

Specifications

Size : 300 mm x 300 mm
Finish : Varying
Thickness : Varying
Style : Inter-lock Panels

Highlight your living room walls with shades of brown, tapering and raising at various geometric angles. Smooth shades keep your eyes relaxed while you wind down after a strenuous day.

Natural Stone Resilience

Natural stones are known for their durability and weather-resistance. Stone mosaics, whether installed in interior or exterior spaces, are easy to clean and require minimum maintenance. Combined with the sheer diversity of colors, patterns and textures, natural stone mosaics are the perfect complements for all commercial and residential areas.

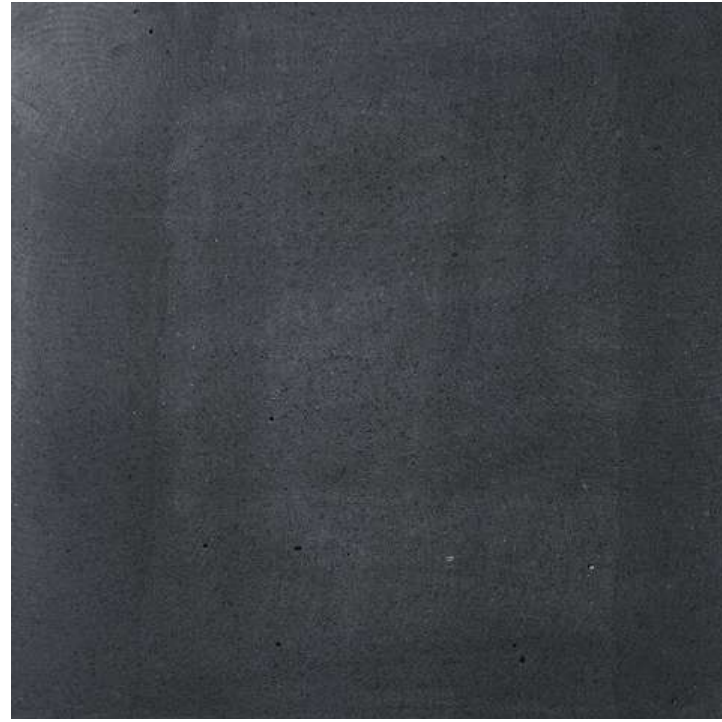

BLACK BASALT

The Volcanic Rock

- Basalt is an igneous rock that formed from the rapid cooling and solidification of lava on the Earth's surface.
- Research indicates that these basalt rocks were formed more than 65 million years ago near Ramganjmandi (Kota – Rajasthan).
- Basalt has high levels of magnesium and iron, making it one of the strongest natural stone.
- Basalt mines has been included in INTACH's list of around 150 geo-heritages nationwide.
